Design, Engineering & Team Work =

● Brief Overview

ARDSCE represents not just another company in the booming Engineering & Technology Sector; Our team holds extensive Technical & Operational expertise to execute Projects with ease.

We provide Engineering Support & Consultancy for Industrial Projects & Solar Projects. We have extensive knowledge of Power Factor Compensation - Harmonic Filter System.

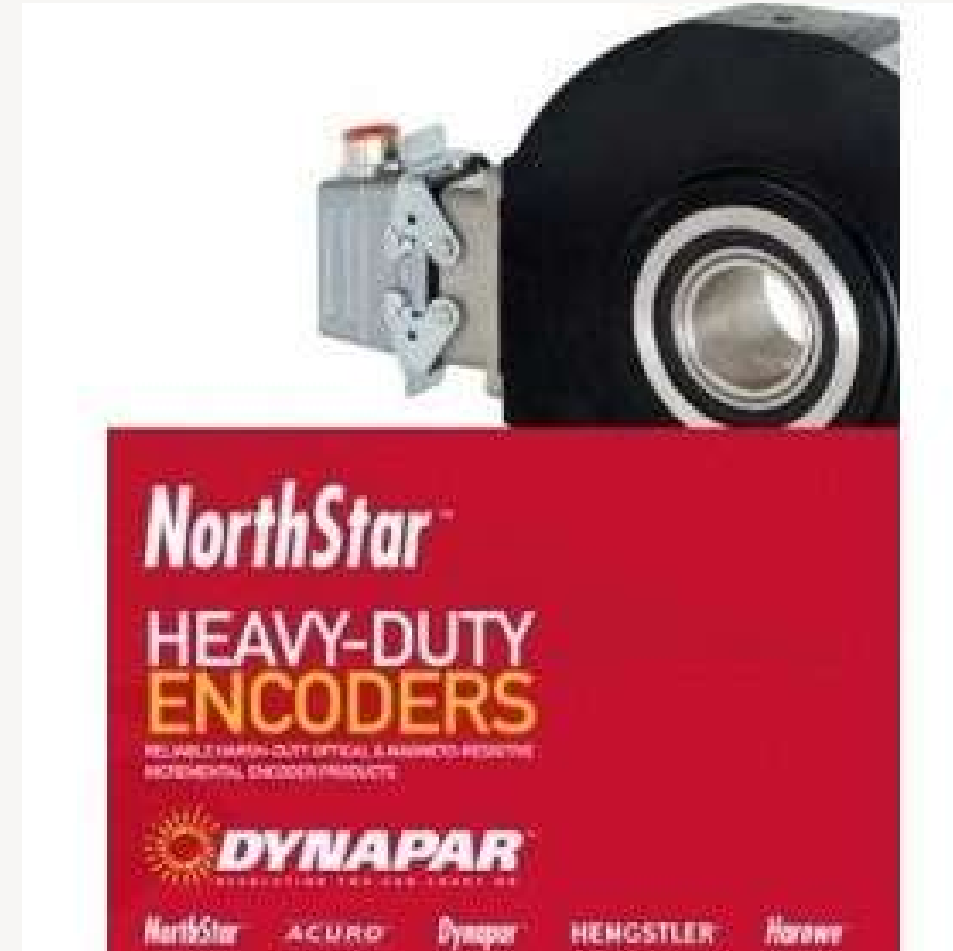

We have expertise in Global Sourcing & can supply Spares of all kinds. ARDSCE provides technical & service support to clients and also has a dedicated team to take up independent Projects on EPC mode.

Whom we represent?

We are Authorized Representative of Hengstler, Dynapar, Northstar & Harowe range of Products.

INDUSTRIAL
 Super Seal hoses are made out of proper selection of the application to be used that satisfy the temperature, pressure, performance and efficiency requirements of various industrial needs.
 These hoses/hose assemblies are of a reproducibly high quality and meet very different customer requirements such as 'freedom from impurities, permeation proof, resistant to various media. Compact & Hybrid Hoses are suitable for a wide range of temperature & withstand high pressure & vibration.

MINING
 Super Seal Hoses are resistant to heat, cold, abrasion, oil, ozone and weather for long service life in all toughest mining conditions. Our Hoses provide reliable and long lasting servicing for specialized mining equipment and application including longwall support system. These hoses are approved by DGMS.

OIL & GAS
 Super Seal hoses are engineered and manufactured for petroleum and fire resistant, fuel, lubricating oils, gasoline. LPG Hoses are for canting and decanting, transportations of LPG & are also approved by LERC for domestic LPG applications.

Whom we work for? ≡

Super Seal

We are the Channel Partner & Consultant of "SuperSeal"

Flexible Hose Limited, a pioneer in Industrial Hose & Flexible Hose manufacturing since 1962 with Clients spread out in India and Globally

What we added in March 2021...

We are Authorized Reseller

Joslyn Clark's Compact CV Series Vacuum Contactors and Starters are ideal for tough industrial applications.

The compact design provides flexibility for retrofitting air break contactors, thus enabling an existing application to continue with maintenance cost and down time eliminated.

These compact CV Series Contactors and Starters are suitable for worldwide applications and for use with all types of motors including high efficiency IEC and NEMA design E motors.

We strive to provide value addition to the expectation of our clients. We are ready to put the extra effort so that our client gains. For any Spare Item requirement let us know. We deal in all Spares & Jobs especially...

- HT & LT Switchgear & Control gears
- PLC & Automation Items
- HT & LT Cables
- Any Electrical Equipment e.g. Motors, Drives, Transformers, Panels, Encoders & all necessary Spares
- Project Tools & Tackles
- Any kind of Operational & Maintenance Spares including Furnace
- IT Devices, Laptop, Desktop, Printer, Switch, Trans-receiver, Industrial PC, Server etc. (Any make)
- Specialization in Solar Project Calculation & Execution
- Power Factor Compensation & relevant Calculations
- Technical Expertise
- Inspection & Quality control assistance
- Field Instruments
- CCTV, LSIS, LSBC, VHF Systems
